

Multi-Turn Speech Dialogue: 2018-2022 Supplement

Papers retained from readme_pre_2023.docx after removing entries published before 2018.

Scope: multi-turn spoken interaction, spoken dialogue corpora and evaluation, turn-taking/interruption, incremental or barge-in-capable systems, and training methods for spoken dialogue. Text-only dialogue papers and single-turn ASR/TTS/SLU work are excluded unless they directly model turn-taking for spoken systems.
